

Goshen Families

In an effort to be GREENER the PTO is pleased to announce a new initiative at Goshen. Starting this month, the PTO will begin recycling juice pouches. They can be any brand of juice pouch (not box). Capri Sun and Kool-Aid are the most popular.

The PTO will offer two big collection dates at the school where parents can send the pouches they save at home in. Please do not send them at any other time. In addition, the PTO will have a recycling container at school to collect the juice pouches our little Gators use during lunch.

This is not only a good environmental choice; it's a fundraiser for the school. For each pouch collected, Goshen Elementary will receive \$0.02!

For home collection of the pouches, the juice pouch only has to be empty and the straw removed. You can send them in a brown lunch paper bag (better than plastic baggies) . The first school collection is scheduled for **October 21, 2009** and the next one is scheduled for **November 20, 2009**. You can bring all pouches that you have saved with your kids or drop them off to the office. I will go to each classroom and pick them up. We will try to have one big collection each month. We should see our first check for the school in December.

We hope this is a successful campaign and that our families all embrace going GREENER.
